

BIO 101 : INTRODUCTION TO BIOLOGY I

This is an introductory course designed for non-science majors. It includes physical, chemical, and biological principles common to all organisms. These principles are explained through a study of the scientific method, biological organization, cellular structure, bioenergetics of a cell, cell reproduction, gene theory, inheritance, and evolution. A 120-minute laboratory per week is required.

Credits 4

Prerequisites

Eligible for ENG 101 and MTH 100.
