

BIO 201 : HUMAN ANATOMY AND PHYSIOLOGY I

This course covers the structure and function of the human body. Included is an orientation of the human body; a study of cells and tissues, the integumentary, skeletal, muscular, and nervous systems; and the senses. Dissection, histological studies, and physiology may be featured in the laboratory experience. A 120-minute laboratory per week is required.

Credits 4

Prerequisites

Eligible for ENG 101 and MTH 100.
