

RAD 114 : CLINICAL EDUCATION I

This course provides the student with the opportunity to correlate instruction with applications in the clinical setting. The student will be under the direct supervision of a qualified practitioner. Emphasis is on clinical orientation, equipment, procedures, and department policies. Upon completion of the course, the student will demonstrate practical applications of specific radiographic procedures identified in [RAD 112](#).

Credits 2

Prerequisites

Successful completion of all required previous semester courses.
